we used both the genetic analysis and the morphometric approach to confirm the separate function of the sensory & motor systems. Our results suggest that the sensory system is primarily responsible for the detection of the stimulus, whereas the motor system is primarily responsible for the generation of the response.

Top DepEd exec fires parting shot at GMA

DepEd Sec Dep Armin Luistro fired a parting shot at GMA 7 on Monday, saying it "has ruined" the DepEd's reputation by "misleading" the public about the school system's status.

Luistro, who is leaving the DepEd to become president of the Philippine National Bank (PNB), said in a letter to GMA 7 that the network's coverage of the school system was "biased and misleading."

He said the network's coverage of the school system was "biased and misleading," and that it "has ruined" the DepEd's reputation by "misleading" the public about the school system's status.

SC woes on reforms: Budget, judges lack

By Dennis Gomez
MANILA, Philippines — The Supreme Court's efforts to reform the judiciary are being hampered by a lack of budget and judges, a source familiar with the court's operations said.

The source said the court's budget for 1998 was only P1.2 billion, down from P1.5 billion in 1997. He said the court's judges are also facing a shortage of judges, with only 15 judges available to hear cases.

for government transactions

In 2003, foreign companies were asked for bribes to do business in the Philippines. This is a clear indication that corruption is increasing.

UNSUBSISTANT CONVICTION RATE AT THE SANDAGANAYAN

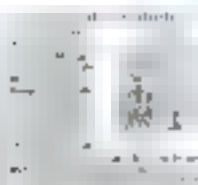

In 2003, 13% of cases decided in the Sandagayan were won by the Unsubstantiated. Only .8% were won in 2001. This reflects grave and deep judicial corruption.

The image is a composite of two documents. The left document is a table with 100 columns, each labeled with a number from Q1 to Q100. The right document is a graph titled "At the University of...". The graph has a vertical axis labeled "Y-axis" and a horizontal axis labeled "X-axis". A line graph is plotted on the axes, showing a series of data points connected by lines. The data points are labeled with numbers from 1 to 100. The graph shows a general upward trend, with the data points reaching a peak around Q50 and then declining. The title "At the University of..." is written in a stylized font at the top of the graph.

Figure 1 displays a sequence of nine images showing the degradation of a handwritten digit '4' under increasing levels of salt-and-pepper noise. The images are arranged in a 3x3 grid. The top row shows the original image and two levels of noise. The middle row shows two more levels of noise. The bottom row shows the most degraded image and two more levels of noise. The digit '4' becomes increasingly obscured by black and white pixels as the noise level increases.

Three black and white photographs of a man in a military uniform. The left photo shows him from the chest up, facing forward. The middle photo shows him from the waist up, facing forward. The right photo shows him from the waist up, facing forward, with his hands clasped in front of him.

Buyers of banks' soured assets to get tax perks

By [Name] Manila

THE GOVERNMENT has approved a bill to extend the Special Purpose Vehicle (SPV) law for two years, allowing buyers of banks' soured assets to get tax perks.

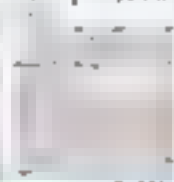

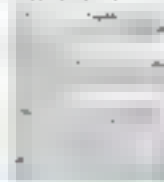

The bill, which was passed by the House of Representatives, aims to provide incentives for investors who purchase non-performing assets from banks.
